

iHoop® *appreciate the difference*

iHoop[®]

iHoop is a pre-finished interior plywood feature panel for internal walls and ceilings. Manufactured from sustainable Queensland Hoop Pine, **iHoop** beautifully captures the natural warmth of this highly sought after Australian species.

the iHoop difference

iHoop is manufactured at **lower temperatures** with a **white glue line**, resulting in a lighter and brighter appearance compared with other panels on the market. Coupled with a high quality clear coating, iHoop is ready to install.

Ready to install, ready to impress

- 100% Australian made, complying to Australian standards
- 100% Hoop Pine construction with "A" face and "A" grade multiply core
- Environmentally certified, sourced from sustainable Australian plantations
- Pre-finished with a water based clear coating, ready to install
- Installation options available including concealed fixing.

2400mm x 1200mm
2700mm x 1200mm

Both in 9mm and 12mm thicknesses.
